BLACKFOOT

Blackfoot is on the high road to prosperity. New buildings are going up on every hand.

A large number of freight wagons are loading for Challis and Bonanza. The Blackfoot Hotel provided over by that Prince of Lavenders, J. W. Kenney, was crowded with travelers in search of wealth in the rich mines of Idaho.

Capt. R. W. Cross of Des Moines Iowa, was understood has been engaged by W. F. Shilling, to take charge of this mercantile establishment at Ross Fork.

Mr. Shilling is preparing to enter into the banking business at Blackfoot. Capt. Cross is a most worthy and estimable gentleman and we welcome such men to Idaho.

Gov. Brayman's letter to Delegate Alvord urging action on several important Idaho matters.

Among the democrats there is a talk of a caucus for delegates to Congress. They reckon on three delegates from New Pore, two from Idaho and one from Shoshone, make it from Idaho side. Hear Lake, Oodina and Lemhi they say, can be safely counted for him or can any other candidate show as much strength to go in on?

William Bennett, William Langley, and George C. Warren, all of Cassia County were arrested by Deputy U.S. Marshal Wm. Jones last week on the charge of perjury committed before the U. S. Land Office on the 12th of January.

The warrants were issued by U.S. Commissioner E. J. Davis of Milled City before whom the examination will be held.

Prior to their arrest copies of the affidavits and testimony sworn to by the parties and upon which the charges of perjury lie, and was forwarded from Washington City to Mr. Justice Fox to be used against the parties.

From what we learn of the case there appears a very little doubt of their guilt.

Oxford was visited on Thursday and Friday of last week by a very disagreeable snow storm.

The weather for more than a week before storm, part of the week before storm, part of the week before storm, part of the week before storm.

Nearly all the stock men and farmers have fed away their supply of grain and hay. One or two more storms like last week and the loss of cattle will be greater than it was during the winter.

THE TERMINES. We dropped into the Terminus last week by way of recreation for ourself, as well as to slake with our many friends living in that luscious place where snow, mud, snow, snow, a little sunshine, and plenty of water, can be found most of the year.

We found that part of the "burg" had already taken up its abode over in Montana, where there is less snow and mud, and that part of it is quite happy. The part yet at the Dives was getting considerably in case they were obliged to move.

Through the kindness of L. J. Pak, our assistant sept. of construction, we took a ride over to the new Terminus, at Red Rock Mountain and was agreeably surprised to find the new town located in the beautiful valley of Red Rock, apparently in a warmer latitude than the Dives, with vegetation springing up on every hand, and business exceedingly lively.

We are inclined to believe the merchants who have been following the Terminus will find the new town of Red Rock the best location for them there have yet found on the line, as there seems to be a resident population in the region round about Red Rock town.

We wish them success as they have had a hard time the past year.

THAT LETTER.

In our trip to the Terminus of the U. S. N. we picked up some information relative to the letter of S. Y. S. published in the STATESMAN some two weeks since, which had "we know not before, we should have paid no attention to it whatever. We hope our readers will forgive us this time, and we'll try to prevent such diversions in the future.

W. F. Fisher Esq. is enjoying the bad weather in assessing the people whose worldly goods will permit of that innovation, tax paying.

Register C. B. Fox and Col. Timony are in Malad this week, Mr. Fox being witness in the land case referred to in another column.

Mr. Henson, of this city, received a dispatch yesterday saying that Hon. John Clark died at Lewiston the evening before last disease—Stomach, 15th inst.

Hon. George Ainslie on the "Star" Mail Service.

"The Home being in Committee of the whole, and having under consideration the bill (H. R. No. 4736) to provide for a district in the appropriation for the iron portion of the tunnel on the route of the canal, ending June 30, 1884, with amendments of the Senate—(April 2, 1880).

Mr. Ainslie addressed the House at some length, and in strong and incisive sentences entered his protest, in behalf of the people whom he has the honor to represent, a slight diminution of the "Star Service" is the only channel through which the provisions of the west for their mails—held communication with the outer world."

Mr. Ainslie admitted the perpetration of fraud, and the existence of glaring abuses, and the necessity of the present system, but which, advocating the enactment of a more restrictive legislation, and the necessity of further legislation, and the necessity of further legislation, and the necessity of further legislation.

Cracked Springs.

Wasmoroc, April 17.—The House of Representatives today adopted a resolution relative to the fact that Springer, its chairman, had received a corrupt proposition in connection with the Donnelly-Whitburn case and a letter from H. H. Finley, stating that the language used by Springer in a denouncing the circuit as a contractor, as a charge against Donnelly, who had asked an investigation, and asking the Speaker to appoint a committee or members of the House to investigate all the circumstances of the letter and report to the House.
