were sorry to bid our Late Register
good-bye, but financially it is un-
doubtedly better for Mr. Fox to en-
gage in other business. May success
crown your efforts friend Fox wherever
your lot may be cast.

We have made a change in the form
of the ENTERPRISE as will be seen by
our readers, which we propose to con-
tinue during the winter. It enables us
to give more reading matter with
less hard labor and expense to the
Publisher.

Our advertisers will be attended to
in due time.

Local Notes.

Gen. T. L. Kimball is now assist-
ant General Manager of the Union
Pacific roads.
There will be school election at the
New School House on the 9th inst. to
vote upon the proposition to levy a tax
for the purpose of building a school-
house for the purpose of a teacher.
Let there be a full turn out of all
that desire to see a school this winter.

Let us petition for a change in our
Territorial government and do away
with election taxes.
Game is abundant in the foot hills
along the base of the Malad range but
the Indian boys are making it lively
for the Jack Rabbits and deer from
the looks of their horses as they come
in.

Some chap nameless to us came in-
to town this week with his face frozen
as hard as the cheek of a government
mule. He evidently had not taken
the precaution to take a bottle or two
of Kentucky frost preventative with
him when he started out from home.

His plume reminded us of a map of
war, with red and blue blotches pre-
dominating. He has all of our pity.
St. Julius profits for the past sea-
son has been more than ours.

He has cleared \$28,000 and we have
cleared something like 28 cents, pro-
vided we collect what is due us, and
are not compelled like our brother
Hay of the Avalanche to publish a
list of "bonds that are not dead" but
do not pay their paper bills, and con-
sequently don't expect to go to Heaven
when they die. But then the fact
that a horse can make so much money
clear in one season proves the fact
that mankind will pay more money
for horse races, than he will to benefit
himself and the balance of the human
race in a mental way. Muscle al-
ways gets away with mind.

The cold weather of the past week
is severe on our wood piles and no
coal to be had. That coal famine
is reaching us severely but thousands
will supply us handsomely.

Oneida in the next Legislature will
have an important place to fill. He-
six Independent members, two in the
council and 4 in the house, can exert
considerable influence if they will
stand together and insist upon their
rights as Independents, and thus con-
trol the balance of power in both
branches.

We received the Southern Utah
Times with our friend Charles King
as its head engineer and freeman. It
is a good lively newspaper, and we
know it will prosper with the vim
in that our Rustling friend will give
it.

Success and good times always, to
the Times.
The fruit tree man has come to time
and his trees have been delivered in
good order so farmers say except, that
the prices are exceedingly high.

The most of the fruit tree peddlers
are the biggest kind of swindlers.
They palm off cheap good-for-noth-
ing trees at a big price, get their cash
and never put their appearance in that
part of the world again. We hope
our farmers have not been swindled.

But then we like to see trees planted
by every body, but ones if good
ones can't be procured.

Where Justice Sits Enthroned.

MALAD, Nov. 23, 1880.
This term of court up to yesterday,
Monday, has been a dull one, owing
to the fact that no jury either grand
or petit, had been empaneled until
that day. Both grand juries are now
in session and the result of their in-
vestigations may accelerate the business
of the term.

The Territorial petit jury was called
on Monday and a panel selected for the
trial of Jose Moya, one of the Span-
iards from Gassia county, charged
with the murder of one Nathan Harris
in Albion on January 1st, of this
year. Some difficulty was experi-
enced in getting a jury for the case, owing
to the publicity the facts have had
by reason of their importance. The
evidence was all in by noon Tuesday,
and the arguments concluded and the
case submitted to the jury by four o'clock
p. m. The defense was con-
ducted by Major J. H. H. who made
a more than ordinarily able argu-
ment on behalf of his client. Messrs.
Crawford and Parker, acted for the
State.

The jury are now out and there is
no probability that they will reach a
verdict before tomorrow.
The case of Antonio Oliva, in the
same connection, will be taken up to-
morrow or next day if a jury can be
had. There are also one or two minor
criminal cases for investigation be-
fore the Territorial grand jury so far
as heard from.

The U. S. business is in a very un-
desirable condition on account of the
absence of Marshall Chase, the pure
bearer of the Government, and who, it
really does seem should either be here
himself, or else provide for the finan-
cial lubrication of the machinery of
justice in the United States side of the
court.

The only civil case to be tried this
term is that of Rader vs. Vander-
wood, breach of contract. Unless the
grand jury should search some-
thing, it is likely that the term will
close the early part of next week.

Malad presents a lively appearance,
with its crowd of witnesses, jurors, &c.,
as Oxford is well represented.
Indian Agent Wright has been in
town for a few days on Government
business of a private nature. He re-
turned to the Agency today.

MALAD, Nov. 29, 1880.
The Territorial grand jury was dis-
charged on Saturday after having
found indictments against Dr. O'Calla-
ghan of Blackfoot for assault with a
deadly weapon; against Frank Noble
of the same place for grand larceny; and
three indictments against Tom
Watson of the same place charging
him with the crime of retaining an
officer in the discharge of his duty; as-
sault with intent to commit murder,
and exhibiting a deadly weapon in a
rude and threatening manner.

The grand jury did not find an in-
dictment against Wesley Rose of West-
ton, who was held to answer by Jus-
tice Preston of that place, by reason of
the insufficiency of the testimony be-
fore them. The jury in the case of
Jose Moya returned a verdict of guilty
murder in the 1st degree. By reason
of some irregularity in the conduct of
the jury, however, the verdict was set
aside and a new trial granted. The
prisoner and also Antonio Oliva, charged
as an accessory with him, by the
advice of their own attorney, and the
consent of the District Attorney, with-
drew their plea of not guilty and en-
tered a plea of "guilty of murder in the
3d degree." The court this morning
sentenced Moya to 12 years, and
Oliva to 10 years imprisonment at hard
labor in the Territorial prison.

Court will probably adjourn by
Wednesday or Thursday of this week,
but may possibly hold until Saturday.

The Adams Family have gone back
on the Democratic party on account
of the poor quality of Barnum's
mules.

EDITORIAL NOTES.

Mooby, Consul at Hong Kong de-
sires to return home.
Our eastern friends are watching the
thermometer climb this winter. We
sympathize with you as we've been
there.

The two Spaniards Antonio and
Olivia were found guilty by the Jur-
ys and a new trial was granted in each
case when they pled guilty of murder
in the 2d degree.

R. F. Pettigrew, republican was
elected Delegate to Congress by a
large majority, from Daootah.

The Presidential electors met yester-
day in their respective state cap-
itols to vote for President and Vice
President, it being the 1st Wednesday
in December.
Congress opens and commences these
votes on the second Tuesday of Febru-
ary.

One of the best men elected to the
next Territorial Legislature is J. L.
Underlock of Lemhi county. He has
the right kind of material in him
to take a leading position in the leg-
islation of the House, and wield a
large influence in the politics and busi-
ness of the territory. We shall be
mistaken if he does not do so.

Gen. Grant made a very amusing
speech at the free lunch given by the
Lotus club of which Whitelaw Reed of
the New York Tribune, is president
and who presided. It brought down
the house. Mylor Cooper proposed a
toast to President Garfield which was
given with a "three times three."

Congress convened yesterday. Our
Jack mormon delegate left for the
seat of war via Salt Lake last week.

Keep sober Georgie and be a good
boy, and we'll send you on a mission
when you get through with your pres-
ent call.

And now it's John Kelly who catches
it from the faithful Democracy. A
scape goat is badly needed by that
party.

Kentucky bids fair to become a rep-
ublican state. If changes occur at the
same ratio the next two years as the
last two years has about, it will be re-
deemed and Nasby will have to bid
it farewell.

Post Master General Maynard recom-
mends some sensible things in his
annual report. Extending the "Maxi-
mum limit of Money orders from \$50,
to \$100, is a good thing, a Postal
Telegraph system is progressive, and
needed and a Postal savings bank sys-
tem would be a complete success we
have no doubt.

The official vote of New York as
declared by the Board of Canvassers
the 24th inst give Garfield a plurality
over Hancock of 20,889. Twenty
thousand bets are good.

Things we would like to see.

Honesty in Politics.
A Good Physician locate in Oxford
permanently.
We would like to see a good school
in progress.
A dozen or two new houses build-
ing.
Two fat turkeys for Christmas pick-
ing.
The farmers of Oneida County
grow rich.

Some gentlemen call us out to take
a slight ride some warm day.
About ten entries of homesteads at
the Land Office, where there is one.
A few hundred of our subscribers
paying their back dues and sending a
new subscriber or two.

A bald-headed man's hair stand
on end.
That box of Cigars we won from
Conductor Brown on the election.
A dog fight that every 1st year in town
didn't run to see.

MINING ITEMS.

The O. K. mine near Bellevue Wood
River has set out one acre out of 200
or so to Salt Lake city.
The wood river Mining Co. is de-
veloping its properties as fast as pos-
sible.
The Bullion mine is looking better
and better every day and with the ad-
vance of a smaller next year this
section of country will become a second
Leadville.

Answer to correspondents.
A young lady of Oneida Valley
wishes to know if we ever knew a
young man ever dying of a broken
heart when refused the hand of young
lady in marriage.

My dear girls, bless your innocent
hearts, yes let and oceans of them.
We know one 40 year old young man
that has died 4 times of busted heart
and is healthy enough to kick the
bucket a few times more. Don't re-
fuse them girls, for its very serious
to the boys.

Missed Connection.
Our mail carrier and the train's did
not meet at the station at the same
time on Thursday night last, and
hence Oxford sent no mail off or re-
ceived any.

Almost a fire.
Our friend Kenry of Oneida Valley
Homes, Blackfoot, came near having
a big blaze in his hotel last week. A
miss is "better than a mile" in such
cases and the excellent hotel yet stands
to furnish rest to the weary and a
good square meal to the hungry.

Up Country.
Blackfoot Register.
Frank Nobles rubbed Barnes of hi
pocket book containing notes and
money to the value of \$500. Sent
to Malad with a deputy sheriff.

OFFICE OF THE "INDUSTRIAL ERA,"
ALMA, IDAHO, May 26, 1880.
To whom it may concern:
I take great pleasure in making the
following statement: I have been af-
flicted with a disease of the kidneys
for the past two years, and have tried
numerous remedies with only partial
and temporary relief. Warner's Safe
Kidney and Liver Cure was recom-
mended to me, and after taking it the
pain and distress left me, and I am to-
day feeling strong and well. I am
perfectly satisfied that Warner's Safe
Kidney and Liver Cure is the medi-
cine needed, and can cheerfully recom-
mend it to others. G. W. STAMM.

By special dispatch from Shanghai, we learn that a treaty has been concluded with China, which will tend to place the control on the immigration of Chinese in the hands of our Government.

The troublemaker Chinese question in a fair way now for a permanent settlement by the only proper method as it seemed to us, by a revision of the existing treaty between the two Governments.

The Pacific coast can now settle its special claims to steady business again, and domestic politics, as well as the labor issue, also like the domestic economy, can return to their regular channel, and driving forces, leading away from future destruction by the cheap laborers from China.

His Minister Seward arrived from China by last Saturday's Pacific steamer, and is at the Palace Hotel. He expects to remain in California some time before going East. He thinks there is no probability of any more influx of the Chinese to this country.

The new Railroad A wide gauge Railroad will be built as rapidly as money and men can build it from Ogden, or rather Brigham City, Utah, via Oerlew valley, and Raft River, Wood River, and Boise City, to Portland Oregon, commencing early in the spring.

Master Charles Johnston of accounts if made out on printed headings, may be sent out for one cent postage if envelope is left unsealed. This is another game put up by the poor printer to get a job of printing bill heads.
