STARTLING WEAKNESS.
Nervous and General Debility.
DR. C. W. HIGGINS,
THE MICROSCOPIC AND ANALYTIC Physician, would inform his friends and the public that he has removed his office to No. 7 Little Row, where he is prepared to treat those afflicted with Fits, Diseases of the Throat and Lungs; Catarrh, Cancers, Tumors, Old Sores, Diseases of the skin, Dyspepsia, Costiveness, Piles and weakness of the Bowels, Liver Complaint, Kidney Complaint, Deafness, Sore Eyes, Neuralgia, Sick Headache, Scrofula, Salt Rheum, Erysipelas, Fleshy Tumors, Anemia, and all Chronic Rheumatism, etc., etc. Particular attention given to Chronic Diseases of Females.
I make a specialty of Chronic Diseases, and endeavor to invisibly invalids placing themselves under my treatment) remedies that will cure cases as well as others.
Many are now enjoying good health who were given up as incurable by friends and physicians, witness to the success of my remedies in the cure of Chronic Diseases, and I here invite the most obstinate cases to consult me. For the encouragement of the afflicted I will say that those who wish it can have the address of parties residing in this city as well as other parts of the country who have been pointed from the grasp of Disease by my remedies, after trying from six to twenty (so-called) eminent physicians in vain.
I form my diagnosis by a microscopical examination and chemical test of the blood and urine, and feel confident that with this scientific method of detecting disease and my method of treatment, I shall be as successful in the future as I have been in the past.
Dr. C. W. Higgins may be consulted daily (excepting Sunday) at his office from 10 a. m. to 2 p. m., and from 3 to 5 and 7 to 9 p. m.
Invalids residing at a distance who are unable to visit my office, can consult me by letter. To those sending the their address (and a postage stamp to pay reply) I will forward a list of questions, answers to which will enable me to judge of the nature and extent of their disease, as well as by a personal examination. My success in the treatment of patients whom I have not been permitted to see (many of whom had been given up incurable by friends and physicians) enable me to warrant as good satisfaction to those committing me by letter, as to those who favor me with a personal interview.
No fee will be expected in any case for the first interview.
N. B.—Please send your address and get one of my books treating on nervous and general debility, Fits, Chronic Diseases and other complaints. Free to all. P. O. Box 718, Salt Lake city Utah. 43-1apr.

TO CONSUMPTIVES.
The advertiser having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure Cure for Coughs, Colds, Consumption, Asthma, Bronchitis, &c.
Parties wishing the Prescription, will please address, Rev. E. A. WILSON, 194 Penn St., Williamsburgh, N. Y. 3-39-1y

DEMOCRATIC CONVENTION.

Delegates to Boise—Proposition from Alleged Repubs not Swallowed.

The Democrats of Oneida County met in convention at the school house, at 1 o'clock p. m., on Monday, the 4th inst.

Hon. Willard Crawford was elected temporary Chairman and Hon. W. L. Webster Secretary.

The Chairman made a brief speech, thanking the convention for the honor conferred, and stating the object for which the convention was called.

The following were elected committee on credentials: W. H. Homer, Geo. Stuart, Joshua Hawks, Chester Call and Sol. H. Hale. A recess of twenty minutes was then taken to allow the committee to report.

After recess the committee reported the following-named persons entitled to seats in the convention.

Beaver Canyon—Julius Bassett, W. N. Thomas.

Malad—George Stuart, J. L. Roberts.

Deep Creek—J. P. Harrison, by Geo. Stuart proxy.

St. John—Lewis J. Lewis, by Geo. Stuart proxy.

Franklin—Joshua Hawks, W. L. Webster, Wm. Woodland, the latter by J. Hawks proxy.

Blackfoot—Geo. H. Storer, by A. Hoel proxy; S. D. Chase, by W. H. Homer proxy.

Cherry Creek—Joseph W. Dudley, by J. L. Roberts proxy.

Cedar Butte—W. M. Parker, by W. F. Fisher proxy.

Preston—A. W. Sabins, Thomas Hehe.

Mink Creek—Hans Rasmussen.

Marsh Valley—J. S. Watson, W. Woodland.

Oxford—P. L. Bingham, S. Pearson, J. H. Hardwick.

Weston—J. W. Dawson, Peter Mickelson.

Portneuf—Chester Call.

Samaria—David Bower, by John Jenkins proxy.

Rock Creek—Wm. Barnhart.

Gentile Valley—R. H. Williams, Sol. H. Hale.

Soda Springs—H. Horsley, by W. Crawford proxy.

Carribou—Wm. Clemens, by W. H. Homer proxy.

The report was accepted by the convention and the committee discharged.

A permanent organization was then effected by electing Willard Crawford chairman, and W. L. Webster, secretary.

The following committe was elected to suggest the names of delegates to attend the Territorial Convention at Boise City, September 18th: W. F. Fisher, George Stuart, Sol. H. Hale, W. L. Webster and W. N. Thomas. They reported the names of Chester Call, W. F. Fisher, R. H. Williams, Joshua Hawks, Julius Bassett and George Stuart. The names were accepted, and they were elected as delegates unanimously.

Mr. H. Bennett then attracted the attention of the Democracy, and he opened out by announcing himself as a representative from the Republican convention then in session in the Oxford Hotel, and stated that the Republican convention wished the Democratic convention to appoint a committee of five to confer with a like committee of the Repubs, in regard to county matters. In accordance with the request the following committee was appointed: R. H. Williams, W. H. Homer, Julius Bassett, J. H. Hardwick, and Sim Pearson. After conferring with the Republicans the Democratic committee made their report, which was politely declined by the unanimous vote of the convention, and a committee appointed to so inform the Repubs.

A. Heed, Willard Crawford and Chester Call were then appointed committee on platform and resolutions, and the reported as follows:

WHEREAS, The Democratic party of Oneida county, Idaho, is now convened in county convention by its duly elected delegates from each and every precinct; therefore be it

Resolved, That we reaffirm and unalterably stand by the principles of Democracy enunciated by the fathers, added to and improved by their descendants, and so ably stated and set forth in our National platform at the last Cincinnati Democratic convention.

Second—That we are unalterably opposed to any division of the county, or any agitation in regard thereto, for the ensuing two years.

Third—That we are in favor of retrenchment and reform in Territorial and all matters of County government in all cases.

Fourth—That the rights of our citizens on the Fort Hall Indian reservation demand the immediate and speedy opening of the same to settlement, with a due regard for all consistent rights of the Indians.

Speeches were then made by Hon. Willard Crawford, Hon. Joseph Rich, W. W. Woodland, A. Heed, and others.

After a lengthly discussion on the subject of nominating a county ticket now or defer it until a later date, they resolved to adjourn to the second Monday of October, to meet in Oxford.

IN A NUT-SHELL

But Where Was the Kernel—Wheeler?

The Republican County Convention met pursuant to call at the Oxford Hotel, Monday, at 12 o'clock.

Mr. H. O. Harkness, Chairman of the County Committee, was chosen temporary chairman.

On call of delegate, it was found that a majority of the delegates were present.

On motion of Mr. Boland, Mr. H. O. Harkness was chosen chairman, and on motion of Mr. Bennett, Mr. Geo. S. Bigelow was chosen secretary.

A conference committee was appointed to confer with a like committee from the Democratic Convention to arrange regarding a division of the county, but their report was not accepted, and in order to consult further with the Republican voters, and on motion of Mr. Bigelow, the Convention adjourned to meet at Blackfoot on the second Wednesday of October.

Carribou Items.

The Carribou mining camp the last season has not been as lively, owing to a few men owning the available water. There is any amount of good paying ground if some enterprise could be inaugurated to bring in more water.

From Sheriff Homer and Joseph Rich, Esq., who have just returned from there, we learn that the miners in that camp are just beginning to clean up the summer's run, and wages will be good. The placer diggings are not much of a lottery, as removing so much earth yields about so much gold, so the parties know all the time what the result of their labors are.

The quartz mines on the Carribou mountain look well. Hundreds of tons of ore, rich in gold, lies on the dump awaiting only a mill to grind it out, all free milling ore. The capitalists are willing to put in mills, but their poor partners in the mines are afraid of the freezing-out process of assessments, and so matters stand still. Quite a number of these mines would readily sell for high figures in cash, but a little more is asked than offered.

Wm. Clemens, and Mr. Stevens, his partner, are putting together 1200 feet of 14-inch wrought-iron hydraulic piping for next season's work, with which they propose to wear out and wash away a portion of the earth in the Carribou mountains.

Mosquitoes are dead and berries and cranberries ripe, and Uncle Johnny Robison says: Uncle Johnny offers a good, square warm meal to any Democrat who strikes his cabin, and cold grub to Republicans, as usual.

SAMARIA.

Some Queer Doings in that Village—A Letter.

EDITOR ENTERPRISE—Enclosed you will find an exact copy of a letter dropped near the house of David Roderick, at Samaria, on the 25th ult., which people here think should be published to the world, so that the people may know how things are carried on in that little berg at present. By request of Hawkins, (Roderick afterwards consenting to same) Messrs. Thews, Morgan and Davis settled the matter referred to in the letter, both parties signifying their willingness and accepting the decision of the Board of Arbitration. The deeds, necessary were executed by by Roderick and delivered to Hawkins, which, in our opinion, should forever settle the matter; but the enclosed piece of paper, and its scribbling, seems to show that Hawkins, and, probably, some other parties, would like to have their way in the matter, and intend to carry the same out by spilling blood and burning, if necessary. Our advice to the cowardly wretches is to desist e'er it is too late. If there is anything more powerful than others to excite the people, this is one. The churches are very good to sift this thing to the bottom, and it may bring matters to light that will astonish our people and expose the cowardly villany of certain of our men (?) in these parts. If the foul, dirty, low-lived dictators of such sentences and actions are not cautious, their dark deeds will be exhibited to the world, and they will soon find themselves where there are but few dictators. Let them be moral position in church, wealthy farmers or merchants, this matter will leak out, in fact, it has already. The one that dropped the note is known, and we will send you his name for publication at the proper time. Some parties have an idea that Samaria is outside of the United States and kingdom of its own. Should they continue, they will find that the people of Malad valley are watching them. Following is the letter:

"We the dictators of this dow inclist that you david Roderick deed to bull hookings the balance of is land which you know you got through fraud as your deeds an lying our lives is at stake if we devulge eny secrets

An if you dow not comply with our wishes you will find yourself some morning swinging at the end of a rope and if we should fail with the rope we think a little lead will settle the questions

We heard that hocking offered you a hundred dollers fore the rest of is frod we think he is a big fool we think he is paid you enough we are determend to save you the trouble of feeding your hay out this winter also of threshing you grain if you do not come to time we think you as bad as a highway robber.

if it was bill hocking acting as with you or eny body els we would serve him the same you dow what is wright and your life and property is as safe as eny other man in Samaria if you dow not you must take what follows dow not flatter your self and think that we are trying to scare you eat it is to late because we mean bluess.

we will give you a few days to think the matter over at the same time will watch your movements day and night."

We hope to be able to give you the name, or names, of the "dictators" of the above letter at an early day.

Yours truly, SAM-A-RID.

An exchange says that Prof. Schiff, the Florentine vivisector, has used up more than 14,000 dogs in his experiments. If Prof. Schiff will just bring his working tools and vivisecting-room to America he will receive a welcome warmer and more cordial a thousand fold than has been extended to Oscar Wilde, or Tug Wilde, or Jumbo, or all three combined.

The Idaho Enterprise.

PUBLISHED WEEKLY BY THE ENTERPRISE PUBLISHING COMPANY, OFFICE: ENTERPRISE BUILDING.

THURSDAY, SEPT. 6, 1882.

THEIR BOSS NOT ON HAND.

The Fraudulent Republican County Convention a Failure

In our report of the Convention of the "Big Six" we casually mentioned that they might have had a larger gathering if they had advertised in the Enterprise. The "Six" took the hint, and when they concluded to call another convention they called it through the Enterprise at $1.50 an inch, each insertion. The result, we think, was more than they anticipated, for instead of only "six" being present at the gathering there was "eight," with one of the originals missing—their shrewd parliamentarian and principal portion of the get-all-we-can party—Wheeler—being absent, which was a mistake on their part, as he would have had advised the would-be Republican conventionists not to ask for places for all of them on the Democratic ticket, but be modest in their demands, and he would also have convinced them that "half a loaf is better than none," and saved them the mortification, and the Democrats the gratification, of kicking them unanimously out of the Democratic camp.

The so-styled Republican Conventionists endeavored to form a junction with the Democratic Convention, but the Democrats were not to be taken in, by them at any rate, and unanimously voted that their eyes were open, and declined to give the get-all-we-can conventionists their ticket.

We publish the proceedings of both conventions, at least as much as was obtainable, on another page. We predicted when the fraudulent Republican convention was called, that its object was to amalgamate with the Democrats, and we now assume—which there is no need for—that their adjournment until the second Wednesday in October, is to await the outcome of the Independent Convention, called to meet at Malad on the 18th inst., and the Democratic Convention which meets in Oxford on the second Monday in October, and then they will "flop" to the party that gives them the loaves and fishes, and said party will be enriched with eight solid votes—perhaps.

The fraudulent Republican county convention adjourned to meet at Blackfoot. That is just the place for it. Blackfoot had a majority in both of the fraudulent conventions, and they are getting tired of paying railway fare to accommodate a few men in Oxford, but the Blackfooters had better go slow or their will be another split. You all know it was because Mr. Straight discovered there was another piece of ground in Oneida county, other than Oxford, that brought your fraudulent party to life.

The following may explain why Wheeler was not at the fraudulent convention:

CHALLEY, I. T., Sept. 4th 1882

EDITOR ENTERPRISE—W. passed through here yesterday on his way home to Blackfoot from Boise City. The Messenger Office raised a collection and supplied him with a large box of "pie" and some "roll-ers," and he went on his way rejoicing.

R. A. F., Jr.

In the call of the fraudulent Republican County Committee, Oxford's apportionment of delegates was announced at "8," but they permitted "6" to vote upon all questions before the "eight," and were around town endeavoring to "drum" up more delegates to the great and ingorious con.

In the report of the fraudulent Republican county convention, it is stated that they adjourned to consult further with the Republican voters—Wheeler being the "other Republican voters," and boss of the new party.

It is rumored that a prominent Democrat had something to do with the calling of the late fraudulent Republican county convention.

When were the primaries held in Oxford to elect delegates to the fraudulent Republican county (?) con?

Where in Oxford were the primaries held to elect delegates to the fraudulent Republican county convention?

LOCAL NOTES.

W. F. Fisher and family returned from the Springs Saturday.

Mrs. Bradford, who was lately taken suddenly ill, is now recovering.

We had a pleasant call from Neles Carlson, of Clifton, last week.

See "Information Wanted" in another column. California papers please copy.

We received a pleasant call from our friend Mr. Johns, of Montpelier this week.

H. M. Bennett, Esq., is now comfortably ensconced with his family in his new dwelling.

The Oxford Hotel is now finished and furnished in fine style, and is one of the best kept hotels in Idaho.

We return thanks to Bishop Fidler and lady for a fine bouquet of autumn flowers from their handsome garden.

See card of Dr. Sorenson, of Logan, Utah, on another page. He makes a specialty of Women and Children's Diseases.

Mr. and Mrs. Goesh have moved into their new residence, which they recently purchased from Richard Mills.

Mr. Will Caldield returned to Oxford last Saturday, and can now be found behind the counter at W. F. Fisher's People's Store.

Mr. L. C. Morrison, of Soda Springs, late proprietor of the Oxford and Soda Springs stage line, was visiting with is family in Oxford this week.

Mr. West, our popular station agent, returned on Monday last from a two weeks' visit in the East. He takes a charming young lady, accompanied him, and will spend the winter among us.

Mr. W. M. Fancher, the popular proprietor of the Oneida Hotel, at Oneida Station, has purchased the Sterrett Hotel, at Soda Springs, and it will be thoroughly overhauled and refurnished. Mr. Fancher is a No. 1 landlord and knows how to please his guests. Don't fail to stop at the Sterrett when you visit Soda Springs.

Mr. John Fleming, of American Falls, is visiting in Oxford this week. He reports American Falls as booming, and the farmers all in good spirits over their harvest. John informed us that he had raised 400 tons of hay, 1,200 bushels of wheat and 1,000 bushels of potatoes and casually remarked that anybody could have all of it for cash.

We call attention to the ad. of the Oxford and Soda Springs Stage line. This route is now supplied with first-class horses and conveyances, and is the nearest route from the Utah and Northern railway, to Soda Springs, Gentile Valley and Carribou. Jim Carhart, the popular conductor of the line, will not let you sleep while riding with him. Stages leave the Oxford Hotel every Monday, Wednesday and Friday mornings, at 8 o'clock, returning on alternate days.

The Hon. J. C. Rich says he has traveled in all kinds of company, with all kinds of people, listened to all kinds of yarns, and been interviewed in all kinds of lies, but to the individual who came to his room on the trip to Carribou with David Wright and Sheriff Homer, but one thing therefore do the truth was broached by either one of the two, and that was when both of them confessed they didn't know "Ingin Root" when they saw it. Both wanted to get some for medicine, and both knew of about it until they got where it grew, and then their superative ignorance cropped out promiscuously, with good foot and hanging walls, and they held a private Democratic primary and decided there was no "Ingin Root" growing in the Carribou mountains. Joe says the mosquito and bullbats are over-rated with "Ingin Roos," and that neither Homer or Wright knows the difference between "Ingin Root" and a "moss agate."

Social Party.

The social party on Monday eve. at the Oxford Hotel, was a pleasant affair. The host and hostess, Mr. and Mrs. Phelps, as usual, doing all in their power to please their guests. Dancing was indulged in until quite a spell a late hour, after which the guests partook of a fine lunch.

Among those present were Mr. and Mrs. Ferguson, Mr. and Mrs. Bennett, Mr. and Mr. Huldenhaven, Mr. and Mrs. Big-low, Mrs. Crawford and niece, Miss Blanche, Miss Coral Morgan, Mrs. Straight, Miss Faunbouse, Mr. and Mrs. Dr. House, Mrs. Hale and daughter, of Gentile Valley, Mrs. Williams and daughter of Malad, Miss Hattie Hosier, Mr. and Mrs. Morrison, of Soda Springs, Mr. Barkes, Mr. Danilson, Mr. Stribling, and Boland, of Blackfoot, Mr. Marriott, Mr. Larsen, Mr. Tom House, Mr. J. B. Bond, Mr. James Boyle, Mr. Eaton, Mr. Watson, and Mr. Hewett.

The music, which was very fine, was furnished by Prof. Faulkinstein, of Oxford, and Prof. Williams, of Malad.

James Field obtained a promise from Jenny McHenry and his parents, in Philadelphia, that she would become his when she was 16 he age at that time being 21 but on her 16th birt.day Field committed suicide instead of marrying, for the girl refused to keep the agreement.

Philadelphia has an exceptional opium den. It is a fine house, luxuriously furnished, and the resort of fashionable women, who pay well.

MALAD CITY DEPARTMENT.

Edited by E. M. Knox.

Married—By R. J. Evans, J. P., Mr. Wm. Lewis to Miss Annie C. Jones, all of St. John. The many friends of the young couple in this vicinity wish them much happiness.

Quite a delegation left here lately to attend the Democratic convention in Oxford. Why is that nearly every fall the Democratic party of Oneida county divides into two factions? There are some bold enough in Malad to say that too much church and state is the cause of all the trouble.

There is great dissatisfaction here over the defeat of Judge Prickett in the Boise convention. Republicans here openly declare that they cannot and will not support Sleginer.

One of the shining lights of Cherry Creek came up here a few days ago and took a few drinks of poison and left town with a large bottle of tanglefoot. When nearing the town of Cherry Creek he saluted the people by shooting off a loud pistol, and when he reached the Co-op store at that place he was not satisfied, so he hitched one end of a rope to the horn of his saddle and the other end to the outside of a shutter, and his horse walked off with the rope and shutter. He then took his bottle of poison and broke out several window lights, when he was arrested and taken before Judge Morgan, who fined him $40 and cost, total $88.90. Moral: Boys, the best place for those black bottles is 1,000 miles from your mouths.

Lawyer Smith is enjoying a visit from his brother.

Oxford must be a great town for wheat bread. Another load of flour from the mill of Wm. B. Thews started that way to-morrow.

Arrived—At John M. Morgan's, on September 1st, at 4 o'clock a. m., a little stranger, weight eight pounds. Mother and child doing well.

Mr. Williams, of Walker's wholesale store, Salt Lake City, and family, are visiting their many relatives and friends at this place. Mr. W. is our with his gun or fishing-rod nearly every day, and is very successful with both.

Born—At Wm. C. Jones', on the 26th day of August, a son. All well. Another apprentice for the shoemaker trade.

Mr. Bywater and mother, of Salt Lake City, are stopping in Malad for a few days visiting Mr. E. J. Davis and other relatives.

Lawyer White has been home on a flying visit to his family. He remained home a week, and returned to Dillon Saturday.

At the school election Monday, for Trustees of District No. 2, Malad City, Myers Cohn, Peter Fredricksen and Albert Jones were the successful candidates.

Morgan Morgan and his sisters, Winifred and Margaret, returned to Salt Lake City, on Saturday last, to be present at the opening of St. Marks school.

Died—On Tuesday morning of last week, Mr. Stubbs, of Malad, aged 55 years. His funeral was attended on Thursday, at the school house in District No. 1. The deceased had been ill since last fall.

Mr. Harrison, the blacksmith, was driving across the little bridge near Vanderwood's, the other day, his horse shied, and threw him down in the embankment, bruising him badly. I understand he threatens to sue the county for damages. I think after a few more are killed, and many more are badly injured there, some one will interest themselves in the terribly unsafe condition of that bridge.

Carrying Their Husbands.

At one time the duke of Bavonia was besieged in his castle and was compelled to surrender. His wife demanded for herself and the other ladies that they be permitted to go out in safety with all that they could carry on their backs This was granted, and to the surprise of all, the ladies appeared carrying their husbands on their backs and for the devotion the emperor pardoned them all and let them at liberty. There are many women, who by their industry and economy, to the shame of of the able-bodied men be it said, are carrying their husbands, and their house holds, either by earning all the money themselves, or by economizing with the little that comes into their fingers, while the husband squanders the evenings in a dissolute or voluptuous life.

INFOMATION WANTED

Of John Cox. Lodi Nugenon, England, about twenty years ago. Last heard of, four years ago, at Santa Barbara, California. Anyone knowing of his whereabouts will confer a favor by addressing John Pettygare Enterprise, Oxford, Idaho.

California papers please copy.

JAMES CARHART, Supt.

SEALED PROPOSALS.

Sealed proposals indorsed "proposals" for the erection of a Court House at Malad City in accordance with Plans and Specifications now on file in the Office of the Clerk of the Board of County Commissioners, of Oneida County, Idaho Territory, will be received by the Clerk of the Board aforesaid, at Malad City, until 12 o'clock on Saturday, September 30th, 1882.

Proposals must state the length of time required for the completion of the building after approval of contract and must be accompanied with a good and sufficient bond of $250.00 as a guarantee of good faith.

Contracts will be awarded to the lowest responsible bidder or bidders.

The Board reserves the right to reject any and all bids.

The bidder or bidders to whom the contract is awarded, shall execute a bond in the sum of the full amount of the contract, with two sufficient sureties, conditioned for the faithful performance and compliance with the terms of the contract.

The plans can be seen at the Recorder's Office at Malad City, where copies of the specifications can be obtained on application.

WM. B. THEWS.

Clerk of the Board of County Commissioners, Oneida County, Idaho Territory.

Malad City, I. T., August 24th, 1882.

SUMMONS.

Territory of Idaho, County of Oneida.

In the Justice's Court of Soda Springs Precinct.

John L. Underwood, Plaintiff, vs. Charles Hunter and William Hall Defendants.

The People of the United States in the Territory of Idaho send Greeting to Charles Hunter and William Hall, Defendants,

You are hereby required to appear in an action brought against you by the above named Plaintiff in the Justice's Court, in the Town of Soda Springs, and County an't Territory aforesaid, and to appear and answer the complaint therein, at one o'clock p. m., on Monday, the 25th day of September, A. D 1882, or judgment by default will be taken against you for the sum of, ninety nine ($99) dollars and cost of suit.

The said action is brought to recover said sum of ninety-nine ($99) dollars, alleged to be due and owing by you to said plaintiff for and on a contract for the direct payment of money, and unless you appear and answer at the time herein before set forth, said plaintiff will take judgment against you for said sum and costs of suit.

Given under my hand this 21st day of August, A. D. 1882.

(seal) DAVID D. WRIGHT.

Justice of the Peace.

WANTED

A girl wanted to do housework. Call on Mrs. F. A. Speight for particulars.

FOR SALE.

Three good ponies. Gentle and safe for ladies or children. Enquire of Editor Enterprise.

NOTICE OF HOMESTEAD PROOF.
LAND OFFICE AT OXFORD, IDAHO, Sept. 6, 1882.

THE BEST OF ALL

LINIMENTS

FOR MAN AND BEAST.

For more than a third of a century the Mexican Mustang Liniment has been the only reliable remedy over the world of accidents and pains. Endorsed by the highest authorities. Awarded the highest premium at the World's Fair, Vienna, 1873. For every form of external pain use

MEXICAN

Mustang Liniment is without an equal. It penetrates flesh and muscle to the very bone—making the contusion seem as if by magic. Impossible for effects upon Humanity. Kindness and truth attend every form of external application. It heals without scars.

MUSTANG

Liniment is needed by somebody in every house. Every day brings to the agency of an awful accident or some unlooked for calamity. Should always be stored, for a valuable house or ox saved by the healing power of this

LINIMENT

which speedily cures such ailments of the HUMAN FLESH as

Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Sores and Scalds, Cuts, Bruises and Wounds, Poisonous Bites and Stings, Coldness, Lameness, Old Sores, Foul Boils, Files upon the Human Species, Hoof Bite, Scratches or Grease, Nasal Gleet, Fistula, Sitfast, Poll Evil, Quinsy, Sand Crack, Ringbone, Spavin, Thrush, Diphtheria, Colic, Founder, Harness Sores

SPECIFICATIONS OF MATERIAL AND LABOR

Necessary to the Erection of a Two-Story Frame Court-House, to be Erected in the City of Malad, County of Oneida, Territory of Idaho, According to the Plan Prepared by F. C. Woods.

The contractor will furnish all necessary surveys, grades and levels for the proper location of the building, and will clear the lot, of all obstructions, and be ready for the commencement of operation on, or before the ..... 1882.

They will recognize ..... as an architect and superintendent of the work, with full powers, as hereinafter specified in the duties of the architect; and should any of the contractors delay or neglect such part of the work as the architect will, after giving him three days written notice, have full power to purchase such materials and employ such labor as he in his judgment may see fit to prosecute the work, and charge the same to the contractor; and he will have full power to reject any material or work that in his judgment does not conform to these specifications, and his decisions upon all material relating to the contract will be final and conclusive.

The architect will have full power at any time during the progress of the work to make any change that he or the Board of County Commissioners may see fit without invalidating the terms of the contract.

The contractor will furnish all material and employ all labor required for the several branches of the work as hereinafter specified under the heads of their different trades.

They will be held responsible for all damages that may occur to their to work, from carelessness or neglect on their part, or their employes, protect their work from the elements, and bind to keep it well braced secured until it is finished and accepted.

They will each of them work in harmony with, and conform to, and in no way unnecessarily delay the other branches of the work, and give to the other Contractor or Architect due notice when their part will be ready for the other branches.

Should any of the contractors at any time fail to comply with their contract, or with the notice and the direction of the Architect, they will become liable for any and all damages that may arise on account of such neglect.

They will remain at all times upon the work during its progress, or else having there represented by a proper and reliable foreman, who will have full powers to receive directions and notices from the Architect, and any direction or notice given will be as valid as though given to the Contractor in person.

They will in no case be allowed to make any change or alteration without the consent or order of the Architect; and any change the Architect may see fit to make in the plans or the specifications will be executed by the Contractors; and an allowance to, or deduction from the contract price will be made according to the nature of the change and any addition to, or deduction from, the contract price on account of changes, must be made in ratio to the contract price; and any change so made, shall in no manner invalidate or alter the terms of the contract.

They must apply to the Architect for all information and instructions necessary for a full and complete understanding of the plans and these specifications, and must in no case assume anything on themselves when it is not clear to them.

They will furnish all necessary scaffolding, planks, derricks, and runways etc., for carrying forward this work.

None of the Contractors will be allowed to sub-contract or re-let any portion of this work without the full consent of the Architect.

The Contractors are to fully examine the contents of these specifications as written, and every word is to remain in full force unless it is erased by the Architect before the contract is signed.

Dimensions

For dimensions of the building, height of stories and size of the different parts, reference shall be had to the figures on the plan; and in all cases where the figures are given they must be taken for the measure regardless of what they may measure by the scale.

Mason Work.

EXCAVATING—Excavate for all foundations, walls and footing, to the depth shown on plans. The earth from the excavations to be removed from the ground at the expense of the contractor, and the surface of the ground is to be leveled off smooth and even, and graded to carry water off from the foundation of the building. Surplus earth is to be well filled in and rammed around the foundation wall.

RUBBLE STONE.—The foundation shall consist of an 18 inch wall, 12 inches below the surface of the ground and 2 feet above the surface, entirely around and beneath the outer sills, and a 12 inch wall beneath all cross partitions, built to the level of the outer walls of rubble stone, laid in good lime mortar, and the top of the wall to be made straight and level.

CHIMNEYS AND FLUES.—Build chimneys and flues where and as shown on plan and elevations. The flues to be plastered the entire length with a good heavy coat of mortar, and to be cleaned out and left free from all refuse matter at the completion of the job. The chimneys to be built on brick laid in lime mortar, upon a rock foundation laid in lime mortar, and to be two inches high and six inches wider all around than the brick flues as shown on plan.

ADOBE WORK.—All outside walls to be built in between the studding from sills to top of wall plate with 4 inch thick adobes or unburnt brick, laid in clay mortar.

THIMBLES.—Provide and fit six inch sheet iron thimbles to all smoke flues in each and every room three feet below the ceiling.

DEAFENING.—The mason will deafen the following floor: The large Court-room floor, by filling with grout mortar upon the deafening floor to the depth of two inches.

BED SILLS.—The mason will spread a heavy coat of mortar on top of rock wall to bed the sill into, the mortar to be spread fresh when the carpenter is ready to set the sills.

CEMENT AND LIME.—The cement and lime used in the work is to be good and fresh, of some approved brands, and is to be kept dry until ready for use.

SAND.—The sand used in the building is to be good, clear, coarse and sharp sand.

Lath and Plaster.

The lath used in the building to be four feet long of Bilsam or Watkins pine, put on three-eighth (⅜) inch apart, with three penny nails. Each and every lath to be nailed on each and every stud and joist, break joints every eighth (⅛) lath on all walls, and every fourth (¼) on all ceilings.

All inside walls and ceilings are to be plastered, two coats of plaster finish. The first coat to be of brown mortar scratched coat mixed with proper quantity of good strong plasterer's hair. Second coat to be of brown mortar of lime and sand, and is to be floated up to a true and even surface finish and work into the grounds, reveals, and all angles in ceilings and corners of rooms and all projections of chimneys, breasts etc. are to be made straight and true, and of hard finish, plastered down high to floor behind all base wainscoting etc., up tight to all doors and windows trimmings.

The plastering will be finished to seven-eighths inch grounds or jambs, and must be put on and finished before the woodwork is put up and each and every coat must be allowed to dry before the next and following coat is put on.

All the brown mortar must be mixed and allowed to stand not less than six days before using.

The lime used in mortar must be fresh burned lime, and the sand must be good, clean, coarse, sharp sand.

The plasterer must furnish all necessary benches, tools, and scaffolding, and he must keep the building closed and stormy weather and also in dry and windy weather, when the plastering is liable to injure it. The carpenter will furnish material, other glazed sash, blinds or rough lumber, and fit the same into the windows and door openings to close them up and the plasterer must attend to the closing of them while his work is in progress and is drying; he must provide stove and fuel to warm the building and keep his work from freezing in cold weather until it is dry, and be responsible for all damage by freezing; and in all cases when he is ordered to keep fires, it must be done in closed stoves to prevent coal smoke from injuring the work; and all necessary patching to all walls and ceilings after the other branches of the work has been finished, and leave the work in a neat and finished condition; he must remove all scaffolding, planks, benches and rubbish made by him, from in and around the building as soon as his work is done.

Carpenter Work.

SILLS.—The sills to be six by six (6x6) inches red pine, hilled together and fastened. The sills will be bedded on the walls in a coat of mortar; the mortar to be furnished and spread by the mason, fresh, at the time the sills are set.

JOISTS.—The joist of first floor two by ten (2x10) inches and placed sixteen (16) inches from center to center; the joist of second floor will be two by ten (2x10) inches, and placed sixteen (16) inches from center to center; the joist for ceiling will be two by six (2x6) inches and placed sixteen (16) inches from center to center.

RAFTERS.—The rafters to be two by six (2x6) inches and two (2) feet from center to center.

CHIMNEYS.—Trim around all openings for stairs and around all chimneys and flues; inside casings to be as per detail.

HARPOINS.—Bridging for floor joist is to be two by two (2x2) inches, cut to closely fit at the angles, to have two (2) ten-penny nails at each end. The following joist is to be bridged as above as follows: Two rows of each and every span of joist, except the joist in the long hallway will be one row.

STUDDING.—The studding for outside walls and partitions to be of two by six (2x6) inches and placed sixteen (16) inches from center to center, and will be doubled at both sides of all openings, and will be well nailed to the sills and plates.

PLATES.—The plates on top of outside studding will be double, two by six (2x6) inches with broken joints, and to be well and thoroughly spiked to the studs.

BRACE.—There will be diagonal braces as shown on plan from sill to plate, to be set two (2) inches into both sill and plate, and to be well and thoroughly nailed to each stud, sill and plate with twelve-penny nails.

PARTITIONS.—The studding for inside partitions to be two by (2x6) inches as shown by figures on plans, and placed sixteen (16) inches from center to center, and to be double at both sides of all openings from floor to top of openings; all openings to have a head piece of same width as the openings, and all openings of more than three (3) feet in width to be trussed over head; all partitions are to have a shoe on the floor and plate above, of same width as partitions, and the plate is to be so placed that the lath must form a solid nother, and so as not to allow the lath to run past the partitions.

DEAFENING.—The carpenter will prepare the following floor for deafening by securely fastening to the sides of joists: One by two (1x2) inch strips, and covering the same with one (1) inch boards, cut so as to lay crossways between the joists of Court-room floor.

ROOF AND SHEETING.—Construct roof as shown on plans and sections and cover the same with square edge, inch native sheeting, laid open and securely nailed, each and every board on both edges to each and every rafter, and all boards over ten (10) inches wide to have not less than three nails in each rafter.

SHINGLES.—The roof to be covered with the best native sawed shingles, laid four and a half (4½) inches to the weather, each and every shingle not to have less than two four-penny nails.

SIDING.—The exterior to be covered with the best quality of white pine, mill worked, rustic siding, and nailed to board on each stud with eight-penny casing nails. The siding is to be put up straight and true.

CORNER BOARDS.—The corner boards will be as shown on elevations and as per detail drawings.

WATER TABLES.—The water tables to be as shown on plans and elevations as per detail drawings, one by ten inches (1x10) pine; capped with one and one half inch by three inch (1½x3) pine, planched for rustic as per detail drawing.

WINDOWS.—All windows will be of four (4) lights, sixteen by thirty-two (16x32) inches glazed as shown on elevations and as per detail drawing.

SASH.—The sash will be one inches and a quarter (1¼) thick, check rail sash; all the windows will be hung on pulleys with rush weights and cords.

DOORS.—All doors to be of the size figured on plans as per detail drawing; all inside doors to be of pine three by seven (3x7) feet one inch and three quarters (1¾) thick four (4) panel, planed O. G., excepting Court-room front door, which will be a double door and the mouldings as per drawing and detail drawing. All doors marked "P" "C" on plan to have two (2) light transoms same thickness as doors.

DOOR JAMBS.—The jambs of all the doors to be two inches thick rebated jambs.

DOOR MOULDS.—The thresholds for all doors to be three quarters inch thick red pine. The doors to be hung with three, (3) four inch and a half by four inches and a half, (4½x4½) loose pin butts.

FLOORS.—The floors will be laid with one inch and a quarter by six inches tongued and grooved pine flooring and every board to be nailed on each and every joist with eight penny-nails, set by a quarter of an inch below surface.

STAIRS.—Build stairs where and as shown on plans and sections, treads six inch and a half thick and one inch risers. The tread and risers will be housed into the wall string and will be well and thoroughly wedged and glued. Cove mouldings under treads, the top of risers to be tongued into bottom of treads and be well and thoroughly blocked and glued, the back edge of tread will have risers well and thoroughly nailed with eight penny-nails. There will be carriages cut from two inch plank, cut to closely fit the bottom of tread and back of risers placed beneath the stairs and thoroughly spiked to the plasters. The hand rail to be as per detail and drawing. The ballusters and newell posts to be as per detail and drawing.

DOORS.—The doors to be as shownon elevations and as per detail drawings.

WAINSCOTING.—Wainscot the entire court room with seven-eighths of an inch thick, five inches wide and three eighths of an inch double beaded Walnut to be three and a half feet high, and cap the same with one inch white pine nosing cap and three quarters cove mouldings. The wainscoting to be well and thoroughly seasoned and to be put up straight and true, and to be scribed to the floor, and in no case will any pieces be allowed in lengths of wainscoting.

BASE KNOBS.—Provide and fix base knobs on base behind all doors where the door swings back against the walls.

BUTTS.—The Butts for the doors will be as follows: Four inches and a half by four and a half loose pin butts.

LOCKS.—Lock for front will be six inches mortise lock; locks for inside doors will be as follows: Four inch rim locks.

KNOBS.—The doors will have the following knobs and trimmings: The Court room front doors to have bronze knobs and trimmings; all other doors to have white knobs and trimmings.

SASH LOCKS.—All the windows to have sash locks on the check rail.

SASH PULLEYS.—Sash pulleys will be as follows: Two-inch, plain-faced, axle pulley.

DOOR BOLTS.—The following doors will have bolts at top and bottom as follows: All double doors.

SAND COMB.—Sand comb will be as follows: Cable laid a quarter of an inch.

THE FINAL OF CARPENTER'S WORK.—All the material used is to be of the best quality of the several kinds specified, and all work is to be done in a good and workmanlike manner, the carpenter must have his work well and securely braced, and must provide all necessary covering to protect his work from damage by the other branches of the work as the building progresses, he must close up all windows, doors or other openings either by hanging the sash or blinds and doors, or else with rough pine boards, as soon as the building is ready and before the plasterer begins his work. The plasterer shall keep the building closed while his work is in progress and drying, after which the carpenter will be responsible for damages by leaving the building open. All of the out-side finish of corner-boards, casings, water tables, cornice, porch, etc., must be of the best quality and must be free from all loose or black knots, checks, sap, etc., and must be dressed off with smoothing plane and sand papered.

All inside finish of base, casings, wainscoting, moulding, door and sash must be of the best quality, and must be free from all loose or black knots, sap, check, wormholes, and other imperfections, and must be all dressed off with smoothing plane, and must be sand-papered lengthways with grain of the wood with fine sand paper, and in no case must there be an indentation of woodwork any plasterer marks.

He must set all nails in all woodwork that is placed on surface as least an eighth of an inch below the surface of woodwork, with a nail set; this is to apply to both interior and exterior woodwork.

It is the spirit and extent of this specification that the building is to be finished in a good workmanlike manner according to the plans, and anything herein omitted unessary to complete the same, shall be considered as a part of, and belonging to the contract.

Painting

EXTERIOR.—All the exterior woodwork to be painted with three coats of strictly pure white lead, and pure linseed oil and turpentine, and to be of colors agreed upoby the County Commissioners.

INTERIOR.—All the inside finish of woodwork to have three coats of paint and grained light oak, and one coat of good varnish.

PAINTING.—The painter must put on the first or priming coat at once, as soon as the work is ready, from the hands of the carpenter, and he must remove all stains or dirt and fly specks, etc., from the face of all woodwork that may have accumulated, after the carpenter has left his work. He must fill up all nail holes, checks, loose or open joints, and worm holes in the face of all woodwork, even with the surface of woodwork, with good fresh putty after the first or priming coat is on.

GLAZING.—The sash all to be glazed, provided by the contractor.

W. B THEWS,
Clerk of the Board of County Commissioners, Oneida County, Idaho Territory.

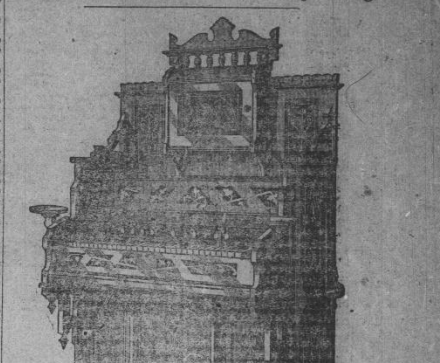
MALAD CITY, August 22nd, 1882.

$47.50.

DAYNES & COALTER

—SOLE AGENTS FOR—

Utah, Montana, Idaho and Wyoming.



Height, 72 Inches. Width, 43 1-2 Inches. Depth, 24 Inches.

What This Organ Does Not Contain.

IT HAS NOT two or three dozen stops of unequal tone when you want to play "Home Sweet Home" with one finger, you do not have to draw out 14 stops.

IT HAS NOT 24 stops that do not produce any tone at all.

IT HAS NOT a patent reed board cut up in such a way that a person might have printed instructions to ascertain how to put the organ in shape to play a tune on it.

IT HAS NOT 10 full sets of reeds. *Nor has any other organ manufactured in America.* THE AGENTS DO NOT live 2000 miles away from each, but Messrs. DAYNES & COALTER'S Store is in SALT LAKE CITY, where they and their organs can be seen at any time.

WE DO NOT refund the money with interest after the organ has been used a year.

What This Organ Does Contain.

IT HAS five octaves of pure and thrilling sets of reeds. *Double throated*, the most secure way of fastening a reed that does ever been invented.

IT HAS 7 stops all genuine speaking, each one producing a distinct set of tones. Names: Diapason, Dulciana, Celeste, Clarionet, Vox Humana, Bass, Treble, and Knee Swell.

IT HAS the finest rubber bellows, extra large size, warranted to hold the air longer than any other organ made.

IT HAS patent safety valve, which prevents any reeds or tunes being put out of tune.

THE REEDS are made of a combination of metals so as to produce a tone wonderful for its sweetness, volume, and promptness of speech.

THE CASE is of black walnut, of unique style, ornamented with artistic designs in gold, high top, with bracketed music portfolio. Genuine oil finish, handles and lamp stand. The case is strongly constructed and tastily finished.

THE PRICE is only $47.50, being lower than any organ ever offered, even the most inferior trash.

Persons forwarding us the sum of $47.50 will receive a receipt for same, and the order will be forwarded to factory the same day, to be shipped direct to the party ordering it. On arrival (which will be about one month after order) our customer will pay the freight, which will be about $13 00, according to distance. Making the total cost $60.50, in two payments.

☞ *If this Organ does not prove as represented, we will exchange it for any other Organ or Piano in our store, and allow the $47.50 and every cent paid for freight to apply on the cost of same.*

N. B.—Although we keep these organs in stock, we can not sell them from our store for this price. Any business man will know that when we have to lay out our money for the organ and freight, bring it from the depot and unbox and box, and reship we must charge more.

"THE GREAT ROCK ISLAND ROUTE"

Calls your attention to the following REASONS WHY it should be made a favorite route:

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY.

R. R. CABLE, General Manager, Chicago.

E. ST. JOHN, General Ticket Agent, Chicago.

Read This!

The subject of entertaining and wholesome reading for the family circle is one of peculiar interest in every household. It cannot be denied that the tendency of the American press is in too large a degree toward sensationalism, and in some instances even the sentiments of purity and sacredness prove an insufficient barrier against the all pervading desire of being novel and startling in the presentation of news. The exceptions to this common rule among metropolitan journals of the day are so few as to be worthy of notice when encountered. The CHICAGO WEEKLY NEWS is one of the few papers of which it may be strictly said that nothing objectionable or impure in thought and morality ever appears in its columns. It is an enterprising paper—none in the West more so—but more than that it is a clean paper, one which it is safe to take into the family circle. The CHICAGO WEEKLY NEWS and the ENTERPRISE will both be sent to any address for $1.00 a year, postage included. Send subscription to this office.

GO BY THE
Rock Island Route
When You Go East.

The traveler, east or west, having come or gone by the Rock Island, will always patronize that line again. By no other route do you receive the same attention to all your wants that you do by the Rock Island. Its track is smooth and laid with steel rails, and its Palace Dining Cars are unequalled by any road east or west. Go by the Rock Island.

The 16th day of this month has been fixed upon as "Utah's Day" at the Denver Exposition. The fare for round trip from Ogden will be $31. Tickets good for ten days.

A petition signed by fifty-three of the leading Sioux Indians, including Red Cloud, has been forwarded to Washington asking that their agent, McGillcoddy, be removed.

A. C. Hessing, a prominent politician of Chicago, and formerly proprietor of the Chicago Staats-Zeitung, is reported as being murdered by his servant near Hermosillo, Sonora, Mexico.

The late Senator Hill, of Georgia, was once challenged to fight a duel by Alexander H. Stephens, the famous Congressman. Hill replied to the challenge in these words: "I will not fight you. I have a conscience and a family. You have neither."

The most Northern place in the world where rye and oats mature is found in the Swedish province of Norrbotten, at Kengis forty-five miles north of the Arctic circle, while the northernmost limit of corn-cultivation is Munhovara, ninety-eight miles north of the circle.

Investigations made in German concerning the comparative vitality of children under various methods of feeding exhibit some peculiar results. Thus, of 100 children nursed by their mothers only 18.2 died during the first year; of those nursed by wet nurses, 29.33 died; of those artifically fed, 60 died; and of those brought up in institutions, 80 died to the 100. Again, taking 1,000 well-to-do persons, and 1,000 poor persons there remained of the prosperous, after five years, 943, while of the poor only 655 remained alive; after fifty years there remained of the prosperous 557, and only 283 of the poor; at seventy years of age there remained of the prosperous 235 and but 65 of the poor. The total average length of life among the well-off class was found to be 51 years, as against thirty-two among the poor.

DR. C. W. HIGGINS,
The old and Reliable Specialist
Cures Piles in their worst forms, and all Chronic Diseases. Seminal Weaknesses, Syphilis in all its forms, Gonorrhœa, Gleet, and all diseases of a private and confidential nature. Dr. H. has made these diseases a specialty for the past two years. Dr. H. has been in the city for the past five years and in that time has cured over one thousand of the above diseases. Suffering friends don't delay call at once and put yourself and Dr. H.'s treatment.
The knowledge of disease is half its cure. Dr. H. can be consulted daily at his office, No. 7 Little's Row, Salt Lake city.
Many have been rescued from the grasp of disease by my medicines, who were given up as incurable by friends and physicians for the proof of this call and get their address and see them for yourselves. CONSULTATION FREE.

MAKES HARD WATER SOFT.
For Washing Clothes and cleaning everything—no matter what—it works quicker, easier, cheaper and better than Soap or other preparations, and will make splendid Soft Soap. It relieves the drudgery of Wash-day and is warranted not to injure hands or fabric. Everybody will continue to use it after a fair trial. Ask your Grocer for it.
